| ... | ... | ... |

Design guidelines

- Pay attention to the number of colours you choose.
- Colours are printed in PMS Uncoated, these may differ from screen colours.
- Do not use images when you print PMS.
- Provide texts in outline or send the font along.
- Make sure there are not too many details.

50 mm

PLEASE NOTE!

Even when this proof is printed, color deviations may occur due to differences in printing technology, substrate differences (for example, a brown material) and monitor settings. This proof therefore does not guarantee that the colors match reality and is therefore only suitable for approval of correct artwork position and color numbers.
